Companies in Maharashtra Working in E-Waste Recovery and Waste Management

Research Document

1. Introduction

Maharashtra has a growing formal ecosystem for electronic-waste (e-waste) collection, dismantling, recycling, refurbishment, IT asset disposal and recovery of valuable materials. The Maharashtra Pollution Control Board (MPCB) maintains an official section for electronic waste and publishes lists of authorized e-waste facilities. The companies below were selected from MPCB's published authorized-facility information and supplemented with information from the companies' own websites. Because authorizations and capacities can change, the MPCB authorization should be checked again before entering into a commercial arrangement.

2. Selected Companies

Company	Location	MPCB-listed role / capacity	Main activities
Eco Recycling Limited (Ecoreco)	Vasai (Palghar); corporate office in Andheri, Mumbai	Recycler; MPCB list shows 18,000 MT/year capacity and authorization validity to 31 Dec 2028 in the March 2024 list.	End-to-end e-waste/WEEE recycling, EPR compliance, reverse logistics, data destruction, IT asset disposition, lamp recycling and battery recycling.
Evergreen Recyclekaro India Pvt. Ltd. (RecycleKaro)	Plant: Village Pali, Wada, Palghar; office: Mahape, Navi Mumbai	Recycler; MPCB list shows 7,500 MT/year capacity and authorization validity to 31 May 2027 in the March 2024 list.	E-waste recycling and recovery of valuable metals; also works in lithium-ion battery recycling and critical-material recovery.
Threco Recycling LLP (THRECO – The Recycling Company)	Head office: Andheri West, Mumbai; recycling plant in Maharashtra	MPCB's March 2024 list records the company as an authorized recycler with 3,000 MT/year capacity and an authorization extending to Jan 2026 in that list.	E-waste collection, recycling, secure data destruction, reverse logistics and corporate/educational e-waste management.
Justdispose Recycling Pvt. Ltd.	Vasai East, Palghar	Recycler; MPCB March 2024 list records 1,200 MT/year capacity with authorization listed through Apr 2026.	E-waste recycling, IT asset disposition, secure data destruction, WEEE recycling, EPR/PRO support and plastic waste recycling.
Green India E-Waste & Recycling OPC Pvt. Ltd.	Dahisar, Thane	Recycler; MPCB March 2024 list records 3,000 MT/year capacity and authorization listed through Apr 2028.	E-waste collection, dismantling, recycling and IT asset disposition/compliance services.

Green IT Recycling Center Pvt. Ltd.	Ranjangaon and Bhor, Pune	Recycler; MPCB March 2024 list records 365 MT/year capacity and authorization listed through Dec 2028.	WEEE recycling, reverse logistics, data destruction, data wiping, asset management and EPR services.
Kuldeep Green Recyclers Pvt. Ltd.	Velu, Bhor, Pune	Recycler and refurbisher; MPCB March 2024 list records 16,350 MT/year recycling capacity and 1,200 MT/year refurbishment capacity.	E-waste recycling and refurbishment of electronic/IT assets.
S V Greentech Private Limited	Kelthan, Wada, Palghar	Recycler; MPCB March 2024 list records 8,500 MT/year capacity and authorization listed through Feb 2028.	Formal e-waste recycling and resource recovery.
Eco Reset Private Limited	Kamptee, Nagpur	Recycler; MPCB March 2024 list records 10,200 MT/year capacity and authorization listed through Feb 2027.	Formal e-waste recycling and management in the Nagpur region.
Sayma E-Waste Solutions	Urali Devachi, Haveli, Pune	Recycler; MPCB March 2024 list records 1,000 MT/year capacity and authorization listed through Sep 2028.	E-waste recycling and formal processing of discarded electrical/electronic equipment.

3. Company Profiles

1. Eco Recycling Limited (Ecoreco)

Location: Vasai (Palghar); corporate office in Andheri, Mumbai

MPCB information: Recycler; MPCB list shows 18,000 MT/year capacity and authorization validity to 31 Dec 2028 in the March 2024 list.

Major activities: End-to-end e-waste/WEEE recycling, EPR compliance, reverse logistics, data destruction, IT asset disposition, lamp recycling and battery recycling.

Recovery / sustainability focus: Uses de-manufacturing, sorting, dismantling and shredding to recover useful materials while handling hazardous components responsibly.

2. Evergreen Recyclekaro India Pvt. Ltd. (RecycleKaro)

Location: Plant: Village Pali, Wada, Palghar; office: Mahape, Navi Mumbai

MPCB information: Recycler; MPCB list shows 7,500 MT/year capacity and authorization validity to 31 May 2027 in the March 2024 list.

Major activities: E-waste recycling and recovery of valuable metals; also works in lithium-ion battery recycling and critical-material recovery.

Recovery / sustainability focus: Processes electronic scrap and focuses on recovery/refining of precious and critical materials such as gold, silver, palladium, copper, lithium and cobalt.

3. Threco Recycling LLP (THRECO – The Recycling Company)

Location: Head office: Andheri West, Mumbai; recycling plant in Maharashtra

MPCB information: MPCB's March 2024 list records the company as an authorized recycler with 3,000 MT/year capacity and an authorization extending to Jan 2026 in that list.

Major activities: E-waste collection, recycling, secure data destruction, reverse logistics and corporate/educational e-waste management.

Recovery / sustainability focus: The company describes recycling of e-waste, metals, wire and cables and solar panels, with emphasis on resource recovery and circular-economy practices.

4. Justdispose Recycling Pvt. Ltd.

Location: Vasai East, Palghar

MPCB information: Recycler; MPCB March 2024 list records 1,200 MT/year capacity with authorization listed through Apr 2026.

Major activities: E-waste recycling, IT asset disposition, secure data destruction, WEEE recycling, EPR/PRO support and plastic waste recycling.

Recovery / sustainability focus: Operates a processing facility with dismantling, shredding, separation, plastics reprocessing and precious-metal recovery capabilities.

5. Green India E-Waste & Recycling OPC Pvt. Ltd.

Location: Dahisar, Thane

MPCB information: Recycler; MPCB March 2024 list records 3,000 MT/year capacity and authorization listed through Apr 2028.

Major activities: E-waste collection, dismantling, recycling and IT asset disposition/compliance services.

Recovery / sustainability focus: Provides end-to-end e-waste management for organizations and individuals, with collection and environmentally responsible processing.

6. Green IT Recycling Center Pvt. Ltd.

Location: Ranjangaon and Bhor, Pune

MPCB information: Recycler; MPCB March 2024 list records 365 MT/year capacity and authorization listed through Dec 2028.

Major activities: WEEE recycling, reverse logistics, data destruction, data wiping, asset management and EPR services.

Recovery / sustainability focus: Focuses on recovering value from end-of-life IT assets while providing secure data handling and environmentally compliant disposal.

7. Kuldeep Green Recyclers Pvt. Ltd.

Location: Velu, Bhor, Pune

MPCB information: Recycler and refurbisher; MPCB March 2024 list records 16,350 MT/year recycling capacity and 1,200 MT/year refurbishment capacity.

Major activities: E-waste recycling and refurbishment of electronic/IT assets.

Recovery / sustainability focus: Combines refurbishment and recycling, helping extend product life while recovering materials from equipment that cannot be reused.

8. S V Greentech Private Limited

Location: Kelthan, Wada, Palghar

MPCB information: Recycler; MPCB March 2024 list records 8,500 MT/year capacity and authorization listed through Feb 2028.

Major activities: Formal e-waste recycling and resource recovery.

Recovery / sustainability focus: Operates as an authorized recycler within Maharashtra's formal e-waste management network.

9. Eco Reset Private Limited

Location: Kamptee, Nagpur

MPCB information: Recycler; MPCB March 2024 list records 10,200 MT/year capacity and authorization listed through Feb 2027.

Major activities: Formal e-waste recycling and management in the Nagpur region.

Recovery / sustainability focus: Provides a formal channel for processing electronic waste and recovering useful materials from discarded equipment.

10. Sayma E-Waste Solutions

Location: Urali Devachi, Haveli, Pune

MPCB information: Recycler; MPCB March 2024 list records 1,000 MT/year capacity and authorization listed through Sep 2028.

Major activities: E-waste recycling and formal processing of discarded electrical/electronic equipment.

Recovery / sustainability focus: Contributes to resource recovery by channelizing e-waste into an authorized recycling facility instead of informal disposal.

4. Importance of These Companies in E-Waste Management

- They provide formal channels for collection, dismantling, recycling and recovery of electronic waste.
- Several companies provide reverse logistics and pickup services, making it easier for organizations to channel discarded electronics into authorized facilities.
- IT asset disposition and secure data destruction are important for companies disposing of computers, servers, storage devices and other data-bearing equipment.
- Refurbishment can extend the useful life of electronics before the material enters the recycling stream.
- Material recovery can reduce the need for primary mining by recovering metals and other useful resources from discarded electronics.
- EPR and compliance services help producers and bulk consumers meet their responsibilities under India's e-waste management framework.

5. Link with the Uploaded E-Waste Review

The uploaded review explains that e-waste contains valuable metals such as copper, gold, silver and palladium along with hazardous substances. It also highlights the low documented global recycling rate and the importance of formal collection, recycling technology, policy implementation and circular-economy approaches. The Maharashtra companies documented here represent practical examples of the formal recycling, recovery, refurbishment, reverse-logistics and compliance approaches discussed in the review.

Note on authorization status: The company capacities and validity dates in this document are based primarily on MPCB's published March 2024 authorized-facility list. Some dates in that historical list have since elapsed. For any actual disposal/recycling transaction, verify the company's current authorization on MPCB/CPCB records before handing over e-waste.
